Application to Field Studies - GEOL 406 (undergraduate) or 606 (graduate)
2-week course in VOLCANOLOGY and ACTIVE FAULTING
Dept. of Geological Sciences
University of Oregon
Eugene, Oregon 97403-1272

Your name: ___________________________________________________________ Date: __________________

Address, phone number and email:

---

**Prerequisites**

*Please enter your letter grade in the space before each course (or its equivalent), and indicate any courses that you plan to take by June.*

- Introduction to Field Methods (GEOL 318)
- Mineralogy (GEOL 331)
- General Petrology (GEOL 332) **NOTE:** GEOL 311 (Earth Materials) may be substituted for GEOL 331 and 332
- Sedimentology and Stratigraphy (GEOL 334)
- Structural Geology (GEOL 350)

Expected Graduation Date: __________

OR equivalent level of expertise and instructor permission

---

**Main areas of geologic interest and plans for future employment, graduate school, etc.**

---

**Diet and Medical**

Diet: Special requirements or restrictions?

Medical: Any special conditions?

Tetanus or booster updated (required) ______

---

**Personal**

Outdoor Experience (hiking, backpacking etc):

Job-related experience:

Any First Aid training?

---

**Name and Location of School**

GPA:

---

For non-UO students, give name of Geoscience Professor who will write your letter of recommendation. Please make sure that the letter arrives by the application deadline. The letter should be sent in e-mail to Marli Miller (millerm@uoregon.edu).
